ABOUT ME

Full-Stack Developer with experience in developing and maintaining web applications using Laravel, JavaScript and React, as well as customizing ERP systems with Sage X3, including API development and database integration. Experienced in leveraging AI-assisted development tools to accelerate development, explore solutions, and improve workflows, while maintaining a strong focus on code quality and understanding of the underlying technologies. Currently seeking new opportunities, with a particular interest in modern web technologies, AI-assisted development, clean architecture, and performance optimization.
